

MINI BEAST ECO HOTEL

Once you've munched all of your Grin-ola, use the pack to create a mini-beast eco hotel!

Collect items such as twigs, pinecones, grass, stones, whatever you can find!). Place all of the items inside the box – the more nooks and crannies the bugs have to explore, the better! Leave your mini-beast eco hotel for a few days, then return to have a look at who has checked in for a stay!

Don't forget to write down what you discover...
